

Student Code of Conduct - State™ (SCOC-STATE) is a research-supported regulatory compliance solution for school systems seeking to manage student behavior concerns more proactively, effectively, and/or defensibly. This comprehensive resource contains dozens of best practices and strategies for properly handling the most common types of student misconduct within school systems.

Delivered on the web within RME Online™, SCOC-STATE contains all of the resources needed to develop student code of conduct administrative guidelines and regulations specific to the needs of your school or district.

Product features

- Specifically designed guidelines and templates for each state
- Support tools for creating school or district student codes of conduct
- Matrices designed to establish reasonable and appropriate behavior management actions based on level of misconduct
- Decision support rubrics to aid in the identification of aggravating and mitigating circumstances
- Integrated support for positive behavior management programs and special education concerns

Upslope Solutions: Demonstrated Strategies for School Success

Product Benefits

- Reduces the labor intensiveness of developing and maintaining related school system-specific administrative guidelines
- Supports higher student achievement by addressing school climate and campus safety concerns
- Addresses ineffective or indefensible behavior management practices or past allegations of exclusionary disciplinary practices
- Aids in statutory compliance for IDEA, Section 504, and ADA-qualified students in cases involving student misconduct
- Re-vitalizes the school's student handbook
