

Special Education Guidelines - State™ (SEG-STATE) is a research-supported regulatory compliance solution for school systems seeking to manage the delivery of special education and related services more proactively, effectively, and/or defensibly. This comprehensive resource contains dozens of best practices and strategies for ensuring that every qualified student receives a *Free and Appropriate Public Education (FAPE)* in the *Least Restrictive Environment (LRE)*.

Delivered on the web within RME Online™, SEG-STATE equips program directors and IEP team members with the tools and workflows needed to conduct a 360 degree “intake to exit” quality assurance review of their current programs.

Product features

- Aligned to related federal laws, state statutes, and board policies
- Implementation support tools for creating or updating special education workflows using federal and state standards
- Task-linked catalogue of documentation examples to help district administrators, IEP Team members and teachers properly deliver special education and related services

Product Benefits

- Reduces the labor intensiveness of developing and maintaining related school system-specific administrative guidelines
- Communicates a common understanding of the school or district special education process among all stakeholder groups
- Helps identify potentially ineffective or indefensible service delivery practices
- Addresses past allegations of unreasonable, unfair or inconsistent service delivery/denial
